The new 4 in 1 Pelican Purple Press

The Pelican Purple Combo Press ("Combo") is a brand new press available from Creative Printers of London.

The Combo can best be described as a 4 in 1 light-duty table-top heat press which is capable of carrying out a variety of tasks by simply switching from one attachment to another, without using a different machine for each task.

The design of the Combo is such that it takes less than a minute to switch it from, say, a flat heat press to a mug or plate press. To switch it to a cap press takes less than two minutes.

Don't worry, you will not have to carry out any unsafe electrical work in order to change it from one task to another. You simply unscrew the insulated adapter from the control box and screw on the adapter for the other attachment - what could be simpler and safer than this?

So what can I achieve with the Combo?

- * Print Baseball Caps
- * Print onto China Plates (Two different sized attachments supplied)
- * Print Mugs (You can print all around a mug)
- * Print T-Shirts, Garments, Hi-Viz Jackets, Plaques, Awards, Clocks, Coasters, Table Mats, Mousemats, Metal, Signs to name but a few!

Yes, a machine costing under a £1000.00+VAT will give you all these opportunities and more! To print on to objects, you may also require a cutting system, colour laser printer and a sublimation printer plus other incidental items (see package details on right hand side)

Who would the Combo Press appeal to?

- Literally anybody and everybody who wishes to offer a on-demand personalisation service.

- * Beginners and novices
- * Those on a limited budget
- * Those with limited space
- * Those who wish to test the market before investing heavily into larger and more heavy-duty machinery
- * Schools / art departments
- * Craftspeople
